

# AIR FRESHENER AUTOMATIC DISPENSERS

## BASIC DISPENSER

Product code:	DISHS1
Material:	Chemical resistant plastic
Dimensions (mm):	242 × 85 × 83

This is a simple 24 hour operation dispenser. No frills but perfect for a distributor who would like a competitively priced, high quality, professional product that will maximise refill sales. Alternatively, it is ideal for an end-user who requires 24 hour control or simply wants minimum fuss when setting up the product.

## DIGITAL DISPENSER

Product code:	DISHS2
Material:	Chemical resistant plastic
Dimensions (mm):	242 × 85 × 83

Digital is the most user friendly and flexible metered aerosol system on the market. There are no programming restrictions allowing maximum fragrance delivery when it is needed. Unlike competing units it can be programmed to operate precisely when a facility is in use or for any pre-specified number of days. This dispenser will not only cut down on refill usage and therefore have a positive effect on the environment it also allows a reduction in overall servicing costs for rental customers.
