Features

Electrical and structural specifications

- Oil electric radiator
- Design: flat
- Colour: white, anthracite
- The appliance is controlled by a control with LCD display
- Class 2, IP 24
- Mains electricity supply: 230 V AC, 50Hz

Standard equipment

- Kit of 2 or 3 wall-mounting brackets (according to the chosen power)

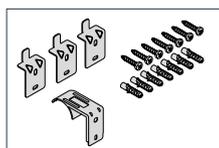

Electric installation

- The appliance has to be used for wall-mounted application
- In the case of installation inside a bathroom, the radiator must be installed outside zone 1 and the switch/electronic control must be in zone 3
- For safety reasons, the radiator must not be installed immediately below or in front of a power socket or in contact with the wall or floor
- For further information, see the *Technical Information pages*

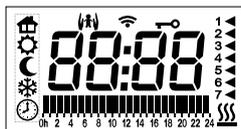

Spare parts

Brackets

included

Spare part code 5525210001
