

## Waste bin in stainless steel

- Full metal housing in robust, easy-to-clean stainless steel AISI 304, satin finished, all corners fully welded.
- Capacity approx. 11 litres.
- Waste deposited through self-closing, flame-retardant hinged flap.
- Housing door swings out to empty the bin.
- Equipped with mesh basket.
- Waste bin lockable with cylinder lock.
- Easy to clean due to optimum accessibility.
- Simple mounting: insert in wall opening and secure in place; for installation in lightweight partition walls, create opening and provide some means of securing at the sides.
- Recess dimensions 300 x 600 x 110 mm
- Also available upon request in a polished finish or with other surfaces.
- Optional use of the plastic hygiene bin WP 34 makes the bin suitable for use as a hygiene waste bin as well.
